

United American Energy, LLC
Field Manager/Supervisor

United American Energy (“UAE”), an oil and gas production company, is currently seeking a Field Manager/Supervisor to join our growing operation in Kentucky

Successful candidate will have extensive (10+ years) operational and business experience as manager of an oil field(s) for a large independent or mid-sized major. We currently have approximately 100 operational wells and plan to reactivate 15-20 wells per month. Experience in Appalachian basin a plus.

Job responsibilities include:

- managing existing production operations in a shallow oil field with low flow wells, including:
 - Hire and manage field staff;
 - Manage well rework and stimulation programs;
 - Lease management including gathering lines, vacuum systems and collection facilities;
 - Manage routine maintenance of wells, vacuum systems and field equipment;
 - Management and reporting of EPA and other environmental issues
- Manage outside contracting crews including rig workers, excavators and well rework crews
- Manage supply vendor relationships
- Manage “Jobbers” and sales of all oil production
 - Negotiation of sales prices net of transportation costs
 - Scheduling of oil pick ups
- Maintain excellent relationships with land and mineral royalty owners;
- Excellent communication skills including regular and routine performance reporting to owners
- Minimal travel required.

Salary commensurate with experience. Relocation and benefits package included. Provide work history, including specific field and business experiences, with salary information and three references.

Please email cover letter, resume and salary requirements to jobs@madisoncap.com, or fax to 303.957.2008. Only qualified candidates will be contacted.
