

United American Energy, LLC
Vice President, Field Operations

United American Energy (“UAE”), an oil and gas production company, is currently seeking a Vice President, Field Operations to join our growing operation in Kentucky.

Candidate will have extensive (10+ years) operational and business experience in overseeing and managing large scale projects within the natural resources / energy industry.

The Vice President, Field Operations will be responsible for overseeing and managing oil field operations, drilling and explorations activities including but not limited to maintaining and operating oil and gas wells, leases, equipment. Obtain, update and maintain all permits, licenses and bonds that are required by the USA, State of KY, Warren County, and/or any other governmental agency in order to operate oil and gas wells, leases, equipment and related facilities, inventory and operations. Supervise the recompletion, reworking and drilling of new wells, and infrastructure improvement and management. Ensure complete and continuing compliance/reporting with all applicable federal, state and/or local laws and regulations, including environmental, health and safety laws and regulations. Obtain new leases, replacement leases, lease amendments, lease ratifications, surface owner agreements, easements, rights of way and/or similar agreements.

RESPONSIBILITIES:

- Maintain and operate oil and gas wells, leases, equipment.
- Obtain new leases, replacement leases, lease amendments, lease ratifications, surface owner agreements, easements, rights of way and/or similar agreements.
- Obtain, update and maintain all permits, licenses and bonds that are required by any governmental agency in order to operate oil and gas wells, leases, equipment and related facilities, inventory and operations
- Supervise the recompletion, reworking and drilling of new wells, and infrastructure improvement and management.
- Ensure complete and continuing compliance/reporting with all applicable federal, state and/or local laws and regulations
- Provide interface with all vendors, service suppliers and customers.
- Manage gas plant operations
- Maintain, establish and enhance relationships with land owners, local county representatives, Oil and Gas Regulatory Commissions, tribal concerns, etc. Establish programs of community involvement and support.
- Work with Controller/CFO to develop specific, detailed budget(s) and action plan for each well (including all costs associated therein, the timing and the projected returns) and the overall field to increase production and return on investment. Make recommendations for offset, new, and/or testing wells as may be applicable
- Provide weekly, monthly, & quarterly reports on all aspects of field operations.
- Communicate with Board of Directors.
- Provide process flow management and serve as a liaison for all operations including, but not limited to; vendor management, royalty payment issuance

management, outsourced accounting operations management, & outsourced land management services.

- Project Execution. Execute & implement action items & projects as defined by Board of Directors.

SKILL REQUIREMENTS:

- Experience in natural resources required
- Ability to increase production & revenue
- Proven project management skills to create, define, & execute on project plans, driving timelines and urgency in staff and vendors
- Excellent communication skills with all levels of individuals from field hands to executive management.

This is an outstanding opportunity to join a dynamic and growing company. UAE offers a challenging and rewarding work environment, competitive wages and benefits.
